

FAQ's About Truvista Surgery Center

Do any hospitals and/or management companies have an ownership stake in Truvista? *No. Truvista is 100% physician owned and managed by a partner elected physician board.*

Is Truvista recruiting additional partners? *Although there are many considerations when determining ownership opportunities, Truvista is open to inviting potential physicians to partner with the current membership.*

Does Truvista allow non-owners to utilize the center? *We have many non-owners who are on our medical staff.*

Does Truvista have available surgical time? *Although we are a busy center, we have operating time available based on your preferences.*

If I'm not familiar with Truvista's technology, will training be available on-site? *Truvista will commit the necessary resources to ensure your comfort with our technology.*

Will my patients agree to travel a long distance for a procedure at Truvista? *We have patients from all over the state elect us for the site of their procedure. On a regular basis we have patients from as far as Flint, New Baltimore, Monroe, and Brighton come for cataract and other procedures.*

Will Truvista consider adding new specialties in the future? *Truvista is a multi-specialty surgery center. In addition to anterior segment focus we currently have Retina, Oculoplastic and Cosmetic Plastic specialists performing procedures. Although it's important for us to remain heavily committed to our anterior segment physicians, as opportunities become available, we will investigate expanding our current specialty selections.*
